

# S. M. HIUL ZAMAN FIYAZ

With 6 years in the creative industry, I have evolved from a specialist Logo Designer into a comprehensive Digital Brand Strategist. My journey includes developing 10+ high-performing WordPress websites and crafting visual stories for 70+ clients, with a particular mastery of brochure and print design. Beyond visuals, I am a Digital Marketer who has strategically deployed \$20,000 in client capital to capture market share. My Top-Rated standing on Upwork, built from the ground up to \$5K+ in revenue, is a testament to my commitment to excellence and client satisfaction. I am now seeking a role where I can merge my design intuition with my proven track record in digital growth.
